Marco Polo

NQ Arbuckle

Everything I say is a lie
How do you like me now
I need you I don't need you
Can you figure it out

I walk past parked cars
Haven't seen you forever
our uncrossed stars
always made for stormy weather

Say it ain't so
Where are you now
Marco Polo

You grab me in your eyes
and the night fades around
What are you doing later
I'm just thinking out loud

In the drunken to and fro
Where are you now
Marco Polo
Marco Polo
Marco Polo

I'm just drifting round the room
catching you time to time
the way you tie your hair back
to another song I can't write

So I sit alone
with the dark and departed
and it's always last call (last call)
just when I'm getting started

Don't make me go home
Where are you now
Marco Polo
Marco Polo
Marco Polo

Marco Polo
Marco Polo
