Epitaph

Downtime

I know you hear what I hear
I put speakers on your brain
I know you see what I see
Because I wrote it on your face
I'll feed off your misfortune
Till there's nothing left to save
I'll bury you on Sunday
And put roses on your grave

Set in stone right now
It's only a matter of time

You're never going to take me alive
Gonna to find another way survive
It's do or die
It's me against the world

Time, you're never going to take me alive
Gonna to find another way to survive
It's do or die
It's me against the world

I know you feel what I feel
'Cause we're all built the same
And in the end there's nothing
Only fingerprints and pain
The echoes of misfortune
Nothing can be saved
Bury me on Sunday
And leave roses on my grave

Set in stone right now
It's only a matter of time

You're never going to take me alive
Gonna to find another way survive
It's do or die
It's me against the world

Time, you're never going to take me alive

Gonna to find another way to survive
It's do or die
It's me against the world

It's getting complicated staying alive
With all this love and hatred embodied inside of me yeah
Embodied inside

(Hey) It's just me against the world
(Hey) It's just me against the world
(Hey) It's just me against the world
(Hey) It's just me against the world

Time, you're never going to take me alive
Gonna to find another way to survive
It's do or die
It's me against the world

Time, you're never going to take me alive
Gonna to find another way to survive
It's do or die
It's me against the world
