I'm So Ready

Blanche Eden

Im so ready
This ain't hard to see, I only see you and me
Who would have thought we'd get this far?
Making plans together, I know its hard
Cause we've been scarred by the ones we love
I know sometimes it seems like I don't want this or like I don't care
But I'm telling you, Im telling
Im so ready
Chorus

All my life I've dreamed of this time
When I saw you I knew you'd be mine
I know I'm the one you love, my kisses they tell you
That Im the one for you, you, you
Im so ready

There were times I said for sure its over
We yelled, I cried, I left, you tried
We hurt each other, but we forgive
One another
I know I said some things and you said some too
But they're only words, our love, our love is what is true
Im So Ready

Chorus

My love is true
Im so ready
Im so ready, all my life
