Sunshine

Skrape

Outside it's freezing
Inside it's cold
No one to keep me warm
My bones are old
All day the cold stays
And someday I won't waitSunshine inject my mind warm meI can't feel my handsSunshine inject my mind warm meI sit around and watch the snow
I see the sun come out then go
I wish this really was not so
But falling down on the ice
Means it's melting slowSunshine inject my mind warm me
