I Did My Part

Randy Travis

I did my part, I tried my best
I gave my heart, I took no rest
Time will tell if I left my mark
But I'll know full well I did my partWhen I look down that road, what do I see?
My children's children looking right back at me
When they look back at me and I'm long gone away
Will they think kindly of me when they hear me say?I did my part, I tried my best
I gave my heart, I took no rest
Time will tell if I left my mark
But I'll know full well I did my partWhen I look down this hall, what do I see?
A little baby crawling right back to me
I cannot walk for him, I cannot run
But I can hold his hand and show him how it's doneI'll do my part, I'll try my best
I'll give my heart, I'll take no rest
Time will tell if I left my mark
But I'll know full well I did my partBuild a family, build a city
Build a country, build a worldTime will tell if I left my mark
But I know full well I did my part
But I know full that I did my part
