Time Out from the World

Goldfrapp

Breathing in your sip of gold
I follow all your little lines
I like to watch a thousand times
I want to feel you hereI like to watch a thousands times
I make a shrine for youTime out from the world
Leaving it all just for a day
You, like there's a down
Hold me and 'round, take us a dayHere I go, I'm going back
On every word you ever said
I'm dreaming of another time
Yesterday was my alibiWe changed the world, just you and I
I make a shrine for youTime out from the world
Leaving it all just for a day
You, like there's a down
Hold me and 'round, take us a day
