

Bipolar, Baby!

Forever the Sickest Kids

She self medicates, she cries to make her lies
Seem more sincere when she's out of line
She's always right, got her own best interest in mind
She's a bad girl, always out of line
She's kind at times, she's the first to pick a fight
And convince that she's always right
She's up and down, and in and out of this world
She's always out of line, always out of line
She drives me crazy, all of the time
Bipolar baby, one of a kind
She'll break your heart, like she broke mine
Bipolar baby, make up your mind, make up your mind
She's a waste of time, she'll leave you high and dry
She curses and kisses and talks while she listens
She's a bad girl, always out of line
She's a bad girl, always out of line, always out of line
She drives me crazy, all of the time
Bipolar baby, one of a kind
She'll break your heart, like she broke mine
Bipolar baby, make up your mind, make up your mind
Time's slipping away, gotta pick up the pace
Like she's running a race and I'm left behind
Is she worth the chase, should I let her go?
If she comes in close but she knows it, slow down
She drives me crazy, all of the time
Bipolar baby, one of a kind
She'll break your heart, like she broke mine
Bipolar baby, make up your mind
She'll drive you crazy, all of the time
Bipolar baby, one of a kind
She'll break your heart, like she broke mine
Bipolar baby, make up your mind, make up your mind
