Silence Is A Scary Sound

Mcfly

I look into the sky
And I have to ask why
She?d go and leave me?
Oh why do feelings have to die?
Is it all just a sign
Of what is meant to be?
Well, I?m just too excited
I can't believe she kept me silent
She's overdue for a breakout
I better go, she blows my brains out
Silence is a scary sound
Funny feeling happened today
Someone buried in the past
It didn?t mean much that much anyway
I knew that it would never last
I?m torn up inside
There?s a hole in my mind
When you?re not next to me
So I hope you choke and die
On every single lie
Look at what you?ve done to me
Well, I?m just too excited

I can't believe she kept me silent
She's overdue for a breakout
I better go, she blows my brains out
Silence is a scary sound
Funny feeling happened today
Someone buried in the past
It didn?t mean much that much anyway
I knew that love would never last
Well, I?m just too excited
I can't believe she kept me silent
She's overdue for a breakout
I better go, she blows my brains out
Silence is a scary sound
Funny feeling happened today
Someone buried in the past
It didn?t mean much that much anyway

I knew that love would never last
This funny feeling happened today
Someone buried in the past
It didn?t mean much that much anyway
I knew that love would never last
