Mechanism

Benza

Won't look beyond their own existence
Don't understand difficult circumstances
Only know what little they've experienced
No, I won't waste my breath because they lack sensePlague of the Earth, a propaganda fantasy
That never gels in the test of realityInfiltrated every aspect
Infiltrated every aspect, mechanisms
Infiltrated every aspect
Infiltrated every aspect, inject brainwashLook back through the past, see the mass grave
Filled with corpses of the helpless slain
Once established always ends the same
Expansion is the next stage of their game
Invasion forces capture a country, occupy the territoryInfiltrated every aspect
Infiltrated every aspect, mechanisms
Infiltrated every aspect
Infiltrated every aspect, inject brainwashGoTheories in practice, demons run wild
Skulls on skulls are stacked and piled
Master creator, human nature denied
Kills the incentives for the best to striveInfiltrated every aspect
Infiltrated every aspect, mechanisms
Infiltrated every aspect
Infiltrated every aspect, inject brainwashOnly know what little they've experienced
No, I won't waste my breath because they lack sense
Plague of the Earth, a propaganda fantasy
That never gels in the test
