# Repent

## 3 Mile Scream

Yuh hear mi, God fi repent, yuh know
God up, God up, fi real time serious
Yuh dun know, God up, God up, God upCheck the state of the world we live in
Can't you see it's a cryin' shame?
(Forgive them)
Leadership fails before it begins
Motivated by personal games
(Forgive them)Tempers flare and patience wear
Ten finger pointin' but who is to blame?
Repent, repent, repent, repent'Cause we're two steps away from a real disaster
Think there's a boss but a who are the master?
Life set a pace, every thing's much faster
Need to slow down and pray, forgive themTwo steps away from a real disaster
Think there's a boss but a who are the master?
Life set a pace, every thing's much faster
Need to slow down and prayFightin' for what they did not create
Cryin' peace while inflicting pain
(Forgive them)
Man deciding another man's fate
Claiming power in their god's name
(Forgive them)Words of love but their actions speak hate
Seems like mankind has gone insane
Repent, repent, repent, repent'Cause we're two steps away from a real disaster
Think there's a boss but a who are the master?
Life set a pace, every thing's much faster
Need to slow down and pray, forgive themTwo steps away from a real disaster
Think there's a boss but a who are the master?
Life set a pace, every thing's much faster
Need to slow down and pray(They don't know)
If they stick to this path there'll be nothing else left to defend
(They don't know)
Instead of finding a cure we should look for the means to prevent
(They don't know)
We can talk to the Lord, ain't no need for a special event
Repent, repent, repent, repent'Cause we're two steps away from a real disaster
Think there's a boss but a who are the master?
Life set a pace, every thing's much faster
Need to slow down and pray, forgive themTwo steps away from a real disaster
Think there's a boss but a who are the master?

Life set a pace, every thing's much faster
Need to slow down and prayCheck the state of the world we live in
Can't you see it's a cryin' shame?
(Forgive them)
Leadership fails before it begins
Motivated by personal games
(Forgive them)Tempers flare and patience wear
Ten finger pointin' but who is to blame?
Repent, repent, repent, repent'Cause we're two steps away from a real disaster
Think there's a boss but a who are the master?
Life set a pace, every thing's much faster
Need to slow down and pray, forgive themTwo steps away from a real disaster
Think there's a boss but a who are the master?
Life set a pace, every thing's much faster
Need to slow down and prayRepent, repent, repent, repent
Repent, repent, repent, repent
Repent, repent, repent, repent
Repent, repent, repent, repent
Forgive them
