Naked

TYA

Don't say a word, just come over here
I got somethin' I gotta do tonight, listen
Ain't never been a man wanting anything
As much as I want you
The sun don't come up till morning so tonight there's no excuse
Just like the rain outside, I'll make your love come down
So baby now it's time, just can't wait no more
I'm gon' give you what ur body's been cryin' for
And if you tell me yes I'll lay you down
Girl we ain't gotta rush let's play around
We'll, do it like we never done before
So go and lock that door
Baby, don't worry 'cuz I'll be gentle
Come on, baby turn the lights off let's get naked
(Ooh, come on)
Come on, baby girl, you know I just can't take it
(I can't take it no more)
Let your panties hit the floor, let your body steal the show right now
(Right now)
It seems like you're ready
So come on, girl I just can't wait to see us naked
(Us naked)
I know you want this girl, I see it in your eyes
(Eyes)
Don't be ashamed of what you got between those thighs, oh
You know I'm gon' try not to be so excited
(But I can't help it)
Feels so good to be invited
So baby get ready 'cuz here I go, hey
(Here I go)
So take off your shoes, I wanna see them toes
Slip off that skirt, and that shirt's gotta go
Come out them drawers, girl you won't be needin' those
(You won't need them, babe)
Now you're wearing what I like, baby let's go
Come on
Come on, baby turn the lights off let's get naked
(Ooh, come on)
Come on, baby girl you know I just can't take it

(I can't take it no more)
Let your panties hit the floor, let your body steal the show right now
(Right now)
It seems like you're ready
So come on, girl, I just can't wait to see us naked
(Us naked)
There's something 'bout that sexy skin your in
Your clothes don't do you justice, so come out of them
So baby take that off, so I can break you off
And give you love, love, love
(Ooh)
Now it's time to enjoy yourself
If you need assistance, baby girl, I'm here to help
'Cuz it's time for us to start this love makin'
(Let's make luv)
But first we gotta get butt naked
Damn girl, you look so good
(Hey)
Won't you come over here
(Over here)
Slip off that skirt, you know that shirt gotta come off
(Baby, baby, baby)
You're lookin' kinda right, now you know it's time
Let's get naked
If you tell me yes, I'll lay you down
(Oh, oh, oh, yeah)
Do it like we never done before
(Oh, oh, oh, yeah)
If you tell me yes, I'll lay you down
