

# Sofisticated Fuck Princess Please Leave Me Alone

## Carissa's Wierd

Still recall  
What made me like you  
Oh yes  
They have  
Said things about you  
And yes  
See  
Where it's true? Thought you could get all you wanted  
By just thinking of yourself  
It's not your pretty face that matters  
And I think you need some help So please  
Just leave  
Me the hell alone  
'Cause now  
I know  
This isn't it all right  
How much  
More times  
Will I have to tell you?  
You try  
To cry  
But it's just for show  
You know I know you know Thinks that things that don't make sense  
Could make you look like a liar  
Don't convince me that you're right  
About some fear I had of heartache  
So I'll make you just one promise:  
That I'll never regret this
