

Found Love (Gomi's Global Village Vocal Mix)

[Joi Cardwell](#)

I found love
I finally found love I found someone
Who will always love me
Ive found
Deep inside
Something I cannot hide
It was you
Only you
Who showed
The magic that love can do Even more than Ive known before
I can only imagine whats
In store
Cause Ive found
Happiness
And Ive found someone to love me
I found deep inside something I cannot hide I cant believe I found love
I found love found love
Ive found love
Well I found it. Yes known love before
But in my eyes only
In your sweet embrace
My heart
Has found a place
What could I do
But fall for you
The lover that makes
all dreams come true Even more than Ive known before
I can only imagine whats
In store
Cause Ive found
Happiness
And Ive found someone to love me
I found deep inside something I cannot hide I cant believe I found love
I found love found love
Ive found love
Well I found it. Looking to the skies above me
The path I found was never far
Gone were the ties that had bound me
I come to you with open arms

What we have I want forever
A bond so strong willl never fail
Example to the world around me
True love will always prevail.I found it
Found love.
