Love Who You Love

Rascal Flatts

Yeah, I should've stolen every moment
Now there's a page with not enough on it
Where we belong
I guess I'll never understand it
Why do we take it all for granted
Until it's gone, Cause then it's gone

Love who you love
With all that you have
And don't waste the time that flies so fast
Love who you love
And say that you do
Hold on as tight as they'll let you
Love who you love

Give all you got like it's your last day
Your heart and soul before it's too late
And pull em in
So close enough that they can feel it
With every single breath that you're breathin
Breathe it in again and again

Love who you love
With all that you have
And don't waste the time that flies so fast
Love who you love
And say that you do
Hold on as tight as they'll let you
Hold on, hold on

Love who you love
Say that you do
Yeah, yeah

Love who you love
With all that you have
And don't waste the time that flies so fast
Love who you love
And say that you do
Hold on as tight as they'll let you

Love who you love
Love who you love

Hold on, keep on holdin on
Yeah, with every single breath you breathe in
Love who you love
Love who you love
Again and again and again and again
