Best Regards

A Classic Education

(T. Sly/C. Shiflett/M. Riddle/R. Koff)
Don't take it so hard, we're not
against you
it's really not that bad, it's just that they
want you to think that it is
I'm over the past but I can't defend you
so I'll say it one last time before I leave
that life behind
It's easy to abuse the friends that end up
screwed
just take one for the team, I hope
you're happy
It's hard to believe that once there
was something
there's something to be said for sinking
the ship that I wanted to sail
you don't have a clue, you never can
and never will
but I'll suck it up and lie, with all my
dignity and pride
These words can't say it all, you're
feeling ten feet tall
and stronger everyday, I've learned to
walk away
So easy to confuse another lie that's true
you'll find out for yourself, I hope
you're happy
