Roses Are Red

The Cootees

Roses are red and violets are blue.
I was all alone until I met you
For so long I was lost but now I've been found
It brightens up my day when you're around me
Well I know you'r far away but I think of you eac day
And its safe to say that youre always on my mind
the day we met I must admit
since then i think about you all the time
You're the sunshine that would brighten up my day
and now its been raining since you went away
If I could have all my wishes come true
Then I wouldn't have to cause I'd be with you
