

# Don't Kill the Messenger

## Night Riots

I'm in love with fire  
I'm in love with fire  
I'm in love with pain  
Cut a gun-shaped hole in a broken soul  
Feeding off the fame And what could I do?  
What could I change?  
We are not the same  
I'm a voiceless mess  
Just obsessed with sex  
Sucked the night's black tongue I'm no center of the universe  
Thinking don't kill the messenger  
But I can't act and I just deserve  
Thinking don't kill the messenger  
Don't kill, don't kill  
Don't kill the messenger  
You're in love with fire  
You're in love with fire  
And you are never wrong  
Try it hard, save yourself, play your parts  
Stay on your back where you belong I'm no center of the universe  
Thinking don't kill the messenger  
But I can't act and I just deserve  
Thinking don't kill the messenger  
I'm no center of the universe  
Thinking don't kill the messenger  
Don't kill, don't kill  
Don't kill the messenger Don't even know where I start  
Would I even make a spark?  
Trust enough to break the dark, oh  
If I could set my light  
Sometimes the end is not too far  
Set a fire through the night  
I'm awake the whole night through  
Saying don't kill...  
Children vanishing in the news  
Saying don't kill... I'm no center of the universe  
Thinking don't kill the messenger  
But I can't act and I just deserve  
Thinking don't kill the messenger

I'm no center of the universe  
Thinking don't kill the messenger  
    Don't kill, don't kill  
    Don't kill the messenger  
    Don't kill, don't kill  
    Don't kill the messenger
