Plastic

Bubble

You got a plastic name and a plastic heart
You can play the game or you'll never start
I'm talkin' to you
You got a plastic house and a plastic fence
Gotta look around or you'll lose your friends
Am I gettin' through?
You got a plastic girl in a plastic bed
And she's in your house made of gingerbread
And you're in there too
Got a plastic smile on a plastic face
But it's underneath that you can't erase
But what can you do, do, do?
Say love, it's not that hard after all
(Tell me what I want, what I wanna hear)
When everybody does
Say love, it's gonna tear down the walls
(Tell me what I want, what I wanna hear)
If everybody loves
You live in a plastic dream through a plastic card
But reality, you don't disregard
You know that it's true
You got a plastic goal in a plastic life
Gotta search your soul, gotta make it right
And here's what you do, do, do
Say love, it's not that hard after all
(Tell me what I want, what I wanna hear)
When everybody does
Say love, it's gonna tear down the walls
(Tell me what I want, what I wanna hear)
If everybody loves
Wake up in the mornin'
Some are not sleepin' tight
A matter you've been ignorin'
Why can't you just say it?
Will not wait forever
Can't you see I'm right?
I want you to endeavor
To tell me again and again
Say love

(Tell me what I want, what I wanna hear)
Say love, it's not that hard after all
(Tell me what I want, what I wanna hear)
When everybody does
Say love, it's gonna tear down the walls
(Tell me what I want, what I wanna hear)
(Tell me what I want, what I wanna hear)
It's not that hard after all
When everybody does
Say love, it's gonna tear down the walls
(Tell me what I want, what I wanna hear)
Tell me what I want, what I wanna hear
Tell me what I want, what I wanna hear
