Rainbow Rider

Chris LeDoux

Well, the sun came up this mornin'
My ain't it a beautiful day
Heard that highway callin'
Time to be on our wayGirl, I never seen the sun shine brighter
I need you to be my rainbow rider
Your sweet smile can keep all the clouds at bay
So come on, get up, we can use a holidayWe're gonna drive up on the mountain
Clear up to the timber line
We sleep out in the moonlight
Way up their among the pinesIn a grassy meadow with the stars up above you
I'm gonna show you how much I love you
We're gonna leave all our worries and cares behind
So come on, rainbow rider, time to rise and shineWe've been hangin' around this ole town too long
Can't you hear that highway callin'
The radio is playin' a traveling song, come onWe'll wake up in the mornin'
Have coffee at a small cafe
And then we find a celebration
And listen to the guitars playWe're gonna run in the sunshine, dance in the moonlight
As long as you're with me, everything will be just right
I might stop to pick you a sweet bouquet
So come on rainbow rider, let's be on our wayYeah, we'll go up on the mountain, all the way to the top
We might just keep on goin', we might never stop
