Silkk Da Shocka (feat. Syd)

Isaiah Rashad

[Intro]
All (?)
She got it memorized
This for the haves and the haves wanna give a fucks, hey[Verse 1]
I ride around in your car
I put the weed in your blunt
I am the sky to your star
I am the end of your month
You are the star to my day
You brought the smile from my face
I see the world from your eyes
You pulled a thorn from my side
[Hook]
I know you love me
It's rare I know you love me
But yeah I know you love me
Sure I know you love me[Verse 2]
You give me all that you got
You make it stretch it and flip
I fell in love with your thighs
I learned it's more than your hips
You know I'm caught in my vibe
But I still give you my rib
You hear them callin' my name
But know it's hard for me here
I left home by myself
I chose the world in the end
I say you know I be back
But try your best to pretend
I see you all that I want
And when I make it, it's real
I hear 'em callin' my name
It's gettin' hard for me here[Hook]
I know you love me
It's rare I know you love me
But yeah I know you love me
Sure I know you love me[Verse 3]
And these stars are nothin' but your cousins
And starin' at your mama in heaven was a father

So holla you heard I'm usin' narcotics
I don't wanna be here if I don't gotta
My weed habit so close to snortin' powder
Got a few gripes but it's only about a dollar
Feel so hollow unless you're usin' narcotics
I don't wanna be here if I don't gotta
My weed habit so close to snortin' powder
Got a few bitches but it's only bout a dollar
Feel so hollow unless you're usin' narcotics
See I don't wanna[Outro]
Tell me, man you talkin' bout this you talkin' bout that. Talk about shit you ain't got nothin' to talk about, mind the motherfuckin' topic, God damn just mind the topic bro. Seriously God damn, (?) ass young motherfuckers
