Two As One

Crystal Kay

Two as one, a slight addiction
Are we stuck in the routine of this?
But still more nights they come and go
The world keeps spinning
All I know, I know it's just you and me
Two as one, for all the nights we missed
Fuck, if I wasn't such a pessimist
This chapter would've played out differently
One for all the nights we missed
Fuck, if I wasn't such a pessimist
This chapter would've played out differently
This chapter would've played out differently
Dig behind the bones to get down to the core
And how do I get into such a tight locked door?
How many times can I take that look?
The best outcome that's from the worst
The worst of you and me
Two as one, for all the nights we missed
Fuck, if I wasn't such a pessimist
This chapter could've played out differently
One for all the nights we missed
Fuck, if I wasn't such a pessimist
This chapter would've played out differently
This chapter would've played out differently
Two as one, a slight addiction
Two as one, a slight addiction
One for all the nights we missed
Fuck, if I wasn't such a pessimist
This chapter could've played out differently
One for all the nights we missed
Fuck, if I wasn't such a pessimist
This chapter would've played out differently
