Cold Cold Heart

Wet Wet Wet

Suddenly, you get a crazy feeling
Then in harmony and I won't be trading places
Now you're history, forget the time I let you play
Your mystery an' I don't knowHappy from the start
Then ripped and torn apart
Looking for a place within your heart
Cold, cold heartNot like the stars that shine so bright
Cold, cold heart of mine
Don't you remember?
Cold, cold heart of mineClose to me, taking out the boy in me
Your chemistry frightens all the life from me
Your honesty sometimes ain't so good
For your mystery an' I don't knowHappy from the start
Then ripped and torn apart
Looking for a place within your heart
Cold, cold heartNot like the stars that shine so bright
Cold, cold heart of mine
Don't you remember?
Cold, cold heart
Cold, cold heart of mineLove's for nothing but you try to get much more
Looking for something you never had before
The words left unspoken, just walked right out the door
For evermore, for evermoreThe magic that love brings
The magic, ooh
That lights the stars so bright
So, so brightYeah, gonna tell the world I love her
Gonna tell the world I love her
Cold, cold heart of mineDon't you remember?
Cold, cold heart
Shine so bright
Cold, cold heart of mineDon't you remember
Cold, cold heart, yeah
