Walk Our Own Road

Randy Travis

There's do'ers and don'ters and I wills and won'ters
And them, that don't even try
Givers and takers, movers and shakers
And them that are just passing bySkidrows and winos and some folks that I know
That don't do like I think they should
I thought they were livin' their lifes all wrong
Long, before I understoodWe all have to walk our own road
We can't always go where we're told
In the end where it'll end up, the Lord only knows
But we all have to walk our own roadI've had some good times and I've had a good life
And I've had things goin' my way
I've walked the highground and treasures that I've found
An' women who brightened my dayThen there were times I was caught in the crosswinds
With life, goin' 'round and around
Like a ship with no sail I was caught in a gale
'Til I fin'ly just ran it a-groundWe all have to walk our own road
We can't always go where we're told
In the end where it'll end up, the Lord only knows
But we all have to walk our own road.
