The Emergency

Run Kid Run

Our poise is set, strike now, don't rest
Hesitation can kill the best
These words cannot get through
These teeth lock in the truth
They scream of murder at bodies bruisedWe gotta get it right
Just wanna get this right
We gotta nd our way back to the light
We gotta get it right
Just wanna nd our wayStand up to the urgency
The emergency is why we sing
Together, one voice
We have made one choice
This is it, this is it
This is who we want to be, whoaLover step in and take the poison that sets in
When silence screams catastrophes
We'll begin the masterpiece
Crisis calls for reaction so let's take this action
Stop hiding 'cause we think it's safer than wordsWe gotta get it right
Just wanna nd a way
We gotta nd our way back to the light
We gotta get it right
Just wanna nd our wayStand up to the urgency
The emergency is why we sing
Together, one voice
We have made one choice
This is it, this is it
This is who we want to be, whoa
Who we want to be, who we want toWe wanna get it right
We wanna nd our way
We wanna get it rightStand up to the urgency
The emergency is why we sing
Together, one voice
We have made one choice
This is it, this is it
This is who we want to be, whoaThis is who we want to be, whoa
And I know, I know
