

# Top Secret

## Ottawans

I'm racin' with time  
You burn in my mind  
I'm a man with a mission  
I gotta rocket in my pocket And nothin's gonna stop it  
'Cause your my obsession  
Please wait for me, wait for me  
Your top secret, your top secret I creep down the street  
My sensors seek your heat, covert operation  
You're a bomb that's tickin'  
I'm goin' down kickin' That's classified information  
Please wait for me, wait for me, wait for me I'm runnin', I'm hidin'  
You're top secret, you love is so exciting  
I'm lyin', denyin'  
You're top secret and baby I'm dyin' I'm in way too deep, there's no time to sleep  
And I'm hungry and thirsty  
It's like my finger's in a socket  
I need your love to shock it but time has no mercy Please wait for me, wait for me, wait for me I'm runnin', I'm hidin'  
You're top secret, you love is so exciting  
I'm lyin', denyin'  
You're top secret and baby I'm dyin' Please wait for me, wait for me, wait for me  
Please wait for me, wait for me, wait for me I'm runnin', I'm hidin'  
You're top secret, you love is so exciting  
I'm lyin', denyin'  
You're top secret and baby I'm dyin' Please wait for me, wait for me, wait for me  
Please wait for me, wait for me, wait for me  
Please wait for me, wait for me, wait for me
