# Liberty

## Kanako Ito

Hit me
Going to California, gonna make it happen
Gonna be a big star and downtown gigolo
Fly out to Memphis, something good for my soul
Elvis always knew just how and where to go
Come on, little darling, I need some liberty in my soul
Let's make it happen, I'm gonna try everything that I know
Little darling, I need some liberty in my soul
Let's make it happen, I wanna give you everything that I know
Oh yeah, another misty morning, rock 'n' roll Seattle
We always have a good time here so we give 'em more
Laid up in Bargo, sit and watch the sun go
Thinking how I'm going to satisfy my libido
Do it, little darling, I need some liberty in my soul
Let's make it happen, I'm gonna try everything that I know
Little darling, I need some liberty in my soul
Let's make it happen, I wanna give you everything that I know

Ah yeah, mmm, hmm
Doo, doo, doo, doo
I need some liberty, come on
I got bills to pay, hungry
Out the door to work out something, yeah
Now I'm on my way and I fear every day
Is getting harder lately in the jungle
Come on, little darling, I need some liberty in my soul
Let's make it happen, I'm gonna try everything that I know
Little darling, I need some liberty in my soul
Let's make it happen, I wanna give you everything that I know
I need some freedom in my soul
Come on and show me what you know
I need some liberty
I need some liberty
