Smack Dab In the Middle

Chris LeDoux

Lately I've been feelin' funny
My head's a-spinnin' and my knees are weak
Every time I get around you, honey
The heartbreak thing comes over meIt all started with a reel o' motion
A little kiss and before I knew
I fell hard with a loud commotion
Smack dab in the middle of love with youSmack dab in the middle
Smack dab in the middle
Smack dab in the middle of love with youAll I do is think about you, baby
I need your lovin' every night and day
I'm in deep and I don't mean maybe
Way over my head gettin' carried awaySo what do you think about the future, darlin'?
I hope you feelin' that you feel it too
'Cause have mercy, my heart is fallin'
Smack dab in the middle of love with youSmack dab in the middle
Smack dab in the middle
Smack dab in the middle of love with youI know I've said it time and time again
Our love was never really in my plans
I sang a solitary, look at you and here I amSmack dab in the middle
Smack dab in the middle
Smack dab in the middle
And I don't know what to doSmack dab in the middle
Right square in the middle
Smack dab in the middle of love with you
Smack dab in the middle of love with you
