My Heart Cracked (But It Did Not Break)

Randy Travis

You're spreadin' lies all over town
About the way you brushed me off and put me down
Well, I'm here to say make no mistake
My heart cracked but it did not breakWell I can't deny, the hurt was deep
The way you slammed that door and walked right out on me
But I'm telling you, get one thing straight
My heart cracked but it did not breakShattered dreams lie everywhere
Broken promises are all we share
But I finally took all I could take
My heart cracked but it did not breakWell I was blue but not for long
'Cause this brand new love I got has made me strong
Well I'm over you and all the ache
My heart cracked but it did not break
