Long Way Down (Meow Mix)

Guster

Dreamed I was dead sleeping in your bed
I floated up from the ground and looked down
Then finally I could see completely
Heard the angels' songI know what you are
I could never tell
They sang what you areThis far away
You're a miniature to me
Are you sorry
You've almost disappearedNow I know what you are
I could never tell
They sang what you areNow the notes are fading
And everything is turned around
And I can't help but think it
Its a long way downAll the lights are changing
And everything is turned around
And I can't help but think it
Its a long way downAnd I know what you are
I could never tell
They sang what you areAnd I know what you are
I could never tell
They sang what you are
