Killer Bees

Six Sigma

She`s cryptic, fearless night
Like transylvanian lightning
Not a thing like me
When she nailbomb`s the kingdomSee me just sucking in the killer bees
they chew right through meI could of been prize fighter
bruisin' , hurtin' me
But headlights go on
and i`m half way gone
now we speak remembereseahh...see me just sucking in the killer bees
they chew right through me
they chew right through meahhh.
