Last Forever

dj-Nate

Everything just moves so fast
I am trying to make it last
Slow it down and just enjoy yourself, yeahh.
Everybody forget your past
Turn it up and let it blast
When we hear that music
That we know so well
I think this song is talking to you and me
I feel the beat
Sayin don't stop don't stop
Right there with you is where I wanna be
So don't stop don't stop don't stop
coz tonight we won't remember
With the people we can never forget
So raise your glass and just surrender
The feeling is right
Just get up to the night
Let's make it last forever
Stay in this moment together
Let's make it last forever
Stay in this moment together
Take a picture in your mind
We can look at it any time
Bring back the feeling that you had tonight
I think this song is talking to you and me
I feel the beat
Sayin don't stop don't stop

Right there with you is where I wanna be
So don't stop don't stop don't stop
coz tonight we won't remember
With the people we can never forget
So raise your glass and just surrender
The feeling is right
Just get up to the night
Let's make it last forever
Stay in this moment together
Let's make it last forever
Stay in this moment together

this night ain't over
we're gowing harded
ill pull u closer like never before
night to remember
make it up forever, ever, ever.....
coz tonight we won't remember
With the people we can never forget
So raise your glass and just surrender
The feeling is right
Just get up to the night
Let's make it last forever
Stay in this moment together
Let's make it last forever
Stay in this moment together
