Calling

Tapsonic

The sun is going down on me
As she surrenders to the sea
So steal the night and fly with me
I'm calling, I'm calling
The moon is high on me and you
Is my message breaking through
Darkened skies that once were blue are falling
So hear me now
Calling out your name
Burning on the flame
Play the waiting game
Hear my calling, hear my calling
Forever and ever
Through distant lands, through mountain streams
My river's running through your dreams
There's an ocean in between
Forever and ever
Chasing shadows through the years
I whisper softly to my dear
Be sure to know that I am here
Forever
So hear me now
Calling out your name
Burning on the flame
Play the waiting game

Hear my calling, hear my calling
Whispers in the air
Hear a lover's prayer
I can feel you there
Hear my calling, hear my calling
No man is an island
That's an empty sin
Discovery is a journey
Just have to let me in
Calling out your name
Burning on the flame
Played the waiting game
Calling out your name

Burning on the flame
Play the waiting game
Hear my calling, hear my calling
Whispers in the air
Hear a lover's prayer
I can feel you there
Hear my calling, hear my calling
No man is an island
That's an empty sin
So steal the night and fly with me
I'm calling, hear my calling
