

# Rise To It

## Kiss

All that style, all gone to waste  
All that beauty  
But you never show your face I'm gonna make my way to you  
Knock down your door and walk on through  
I'm impatient, times a wastin'  
Girl, if you give me an occasion I'm gonna rise to it  
You know I really can do it  
I'm gonna rise, I'm gonna rise  
I'm gonna rise to it When you're lyin' next to me  
Baby, I can guarantee  
I'm gonna rise to it Listen I'll give you fever, I'll give you chills  
Make you a believer  
Well, baby, baby, I'm gonna break your will A little danger, a little fun  
We're gonna take 'em one by one  
Walk the wire of desire  
And if you dare to take it higher I'm gonna rise to it  
You know I really can do it  
I'm gonna rise, I'm gonna rise  
I'm gonna rise to it When you're lyin' next to me  
Baby, I can guarantee  
I'm gonna rise to it Hey, get up, lights, camera, action  
It's gettin' time for the show  
'Coz tonight you're the main attraction  
And if you want a lover who can play the other role  
I'm gonna, I'm gonna I'm gonna rise to it  
You know I really can do it  
I'm gonna rise, I'm gonna rise  
I'm gonna rise to it When you're lying next to me  
Baby, I can guarantee  
I'm gonna rise to it You know I really can do it  
I'm gonna rise to it  
You know I really can do it  
I'm gonna rise to it I'm gonna rise to it  
I'm gonna rise, I'm gonna rise  
I'm gonna rise to it  
I'm gonna rise to it
