Love Like That

The Heavy

I put my back into it
I put a hole right through it
Don't ever leave me
(Don't ever leave, baby)
I work the land all day and
I gave you all my pay, but
It's not enough girl
(Never enough, girl)
I don't need a love like that
(He don't want a love like that)
I don't need a love like that
(He don't want a love)
You took me to great lengths

All that I can do is summon up the strength to
Get a reaction
(Why you never love this man?)
How do you sit so still?
Don't you recognise that you haunt me still?
But bitch, I'm too lazy
(So, so lazy)
I don't need a love like that
(He don't want a love like that)
I don't need a love like that
(He don't want a love like that)
I don't need a love like that
(He don't want a love like that)
Who needs a love like that?
(Who will need a love like that?)
