

# What Game Is This

[Billie Piper](#)

Never know what you're saying  
Put me through all the doubt  
Hoping we can work it out  
What game is this that I'm learning  
Never knew such a burning  
When you go from my house  
Creeping quiet as a mouse Have you got something to hide  
Have we got anything left to save  
I feel so frightened inside  
I can't keep acting brave What game is this  
What game is this Can anybody play  
Did you think you could deny  
All the telltale signs the lipstick on your shirt  
You said was wine  
The crumpled letters in your jeans  
The late night calls and angry scenes  
What d'you take me for  
I know the score  
Repeat chorus to fade
