Angela

Terry Webster

I didn't mean to drag under But I was thinking about you And how your eyes swallowed me whole I've tried my hardest to forget it How does it feel to be But a broken heart is murder for the soul One of the beautiful people? Everytime that I leave it's like goodbye...Forever Angela don't hate me No matter what they say I'll always love you Angela believe in me Don't believe the authorities Remember when we danced together And I promised you the world? Well, I'll have to take that back Because my whole life has been capsized In a minute all the colors turned to black And no one could hear her scream at all My heart was killing me Let's runaway, if only for a day...I'm guilty Angela I'm sorry I've failed you again Don't believe your family And this time it's for good I'm in hell, and you're leaving me Angela I'm sorry Angela believe in me.
