U Know U Want To

Nelly

You know you want to
You know you want to
You know you want to
You know you want to
You're scared
You know you want to
Sh', yeahListen, you acting like you gonna leave me girl
But you know you love me
Said the last time was the last time but you wanna fuck
You know you want to
You know you want to yeah'Cause you think about me every night and day
Don't you worry shorty cause you know I feel the same
Don't leave me girl
Don't you leave me girl
Don't leave me girl
Don't you leave me girl
Wanna take me back but your friends ain't
Just ignore what your friends say
Forgive me and forget about it
But it's too hard to forget about it
Nobody's saying yes but you mind saying no
Baby girl you can stay you don't have to go
Nowhere, nowhere
You can stay right here causeYou know you want to
You know you want to
You know you want to
You know you want to
You're scared
You know you want to
Sh', yeahNow you're saying that we're over
Do you plan to leave me?
But I heard that but fuck girl I don't believe it
You know you want to
You know you want to yeah'Cause you think about me every night and day
Don't you worry shorty cause you know I feel the same
Don't leave me girl
Don't you leave me girl
Don't leave me girl
Don't you leave me girl

Wanna take me back but your friends ain't
Just ignore what your friends say
Forgive me and forget about it
But it's too hard to forget about it
Nobody's saying yes but you mind saying no
Baby girl you can stay you don't have to go
Nowhere, nowhere
You can stay right here causeYou know you want to
You know you want to
You know you want to
You know you want to yeah'Cause you think about me every night and day
Don't you worry shorty cause you know I feel the same
Don't leave me girl
Don't you leave me girl
Don't leave me girl
Don't you leave me girlCondos, penthouse put yo name on the E
Sunday, Sunday I gave you them keys
Keys to every car took you anywhere you want
I bought you anything you saw
I don't even know who you are
Here with me
You say you're done with me but that ain't so
If you wanted me to leave
Then let me know
You're laying here in my bed
My hand between your legs
Took back everything you said'Cause you think about me every night and day
Don't you worry shorty cause you know I feel the same
Don't leave me girl
Don't you leave me girl
Don't leave me girl
Don't you leave me girl
