Pyramids

Kay the Aquanaut

[Intro]Set the cheetahs on the loose
There's a thief out on the move
Underneath our legion's view
They have taken Cleopatra
Run run run, come back for my glory
Bring her back to me
Run run run, the crown of our pharaoh
The throne of our queen is empty
We'll run to the future
Shining like diamonds in a rocky world
A rocky, rocky world
Our skin like bronze and our hair like cashmere
As we march to rhythm
On the palace floor
Chandeliers inside the pyramid
Tremble from the force
Cymbals crash inside the pyramid
Voices fill up the halls
[Repeat Intro]
The jewel of Africa
What good is a jewel that ain't still precious?
How could you run off on me?
How could you run off on us?
You feel like God inside that gold
I found you laying down with Samson
And his full head of hair
Found my black queen Cleopatra
Bad dreams, Cleopatra
Remove her
Send the cheetahs to the tomb
Our war is over, our queen has met her doom
No more she lives no more serpent in her room
No more it has killed Cleopatra
Big sun coming strong through the motel blinds
Wake up to your girl for now, let's call her Cleopatra
I watch you fix your hair
Then put your panties on in the mirror, Cleopatra
Then your lipstick, Cleopatra

Then your six-inch heels
Catch her
She's headed to the pyramid
[Hook]
She's working at the pyramid tonight
Working at the pyramid
Working at the pyramid tonight
Working at the pyramid
Working at the pyramid tonight
Working at the pyramid
Working at the pyramid tonight
Working at the pyramid
Working at the pyramid tonight
Pimping in my convos
Bubbles in my champagne
Let it be some jazz playing
Top floor motel suite twisting my cigars
Floor model TV with the VCR
Got rubies in my damn chain
Whip ain't got no gas tank
But it still got woodgrain
Got your girl working for me
Hit the strip and my bills paid
That keep my bills paid
Hit the strip and my bills paid
Keep a nigga bills paid
She's working at the pyramid tonight
[Hook]
You showed up after work I'm bathing your body
Touch you in places only I know
You're wet & you're warm just like our bathwater
Can we make love before you go
The way you say my name makes me feel like
I'm that nigga
But I'm still unemployed
You say it's big but you take it
Ride cowgirl
But your love ain't free no more
But your love ain't free no more
[Hook]
