Angelie

Die Bambis

Tell me what you want
Tell me what you want, Angelie
You're running through my head, like a melody
I think about you all the time
I push play and then rewind, endlessly
And since I seen your face, I just can't forget
I need you more and more
I crave you like a cigarette
Standing on your crooked street
Silent prayer I repeat, endlessly
I will wait, for you
Through the night, for you
I pay my dues, I sing the blues, I wait for you
I wait for your tender touch
You've become my crutch

I'm faithful still
You bend my will, Angelie
Angelie you fascinate me
You're a mystery
You're original as sin
A tattoo on my skin, Angelie
I will wait for you
Through the night, for you
I pay my dues, I sing the blues, I wait for you
I wait for your tender touch
You've become my crutch
I'm faithful still
You bend my will, Angelie
Angelie you fascinate me
You're a mystery
