Sweet Ocean

Oddo Bam

We dissolve like salt in an ocean
That's way too big for the both of us ah-hah
There are more things in our air than we're aware of,
but don't be scared.
We're way too deep to be found,
we're way too deep to be found out.

Sweet ocean, sweep over me.

We're dissolved like salt in your ocean
and you were hovering over our sea
But now you're in my sea
and now you are my sea.

Sweet ocean, sweep over me.

A flood is in the air and it's cloudy on the ground
I'm stripping myself bare take me there, take me there.
Eternal sleep is not for me, drown me in infinity,
That is what I hope for, and that's what it's like when you love the sea.
