Escape

Advisory - the following lyrics contain explicit language:

Don't believe the hypeYou're being tempted by the same ol'
You say it's under control
Just remind me how you see so clearly
Face down in a holePress toward the light
And the light will ground you
Go with the flow
And the flow will drown you
Hey now, there's always an outBut if you get up, get up, get up
You can breakaway
And if you get out, get out, get out
Nothing can overtake
Don't wait, escapeWe get beaten by the same sticks
Until we start to crack
We get deceived by the same tricks
That's why the devil's bringing 'em back
(He's bringing 'em back)But if you get up, get up, get up
You can breakaway
And if you get out, get out, get out
Nothing can overtake
Don't wait, escapeDon't believe the hype
It's such a letdownBut if you get up, get up, get up
You can breakaway
And if you get out, get out, get out
Nothing can overtake
Don't wait, escape
