

# Shining

## Vacationer

ll help you where you won't need to go often  
on you came and you went  
after I sure got the second chance offered  
I kept you all by yourself  
and then the thoughts all come rushing back  
one word, I didn't want to admit  
I can remember us shaking hands at first  
I'm good with everything else  
we covered it  
it's shining in  
it all comes through  
it's intimate  
we can't admit  
it all comes through

I help you where you won't need to go onward  
hope you're still wide sail  
I'll give a warm gesture if you come over  
we don't need anything else  
I don't remember us shaking hands back then  
but I know how it began  
we covered it  
it's shining in  
it all comes through  
it's intimate  
we can't admit  
it all comes through
