The Cure

Novice

I spent some time alone without you
Just to see what I had left behind
I tried to take away the pain
From all the times and all the years I felt let down
But all I saw was you
And when I felt like giving up you said
Oh no
Just keep on running
Oh no
You can give up this timeWe all fall down
No matter who you are
You will feel lonely
To say the least and know that
if you're looking for a cure to this life
You won't find it
No you won't find it aloneI took some time to figure out myself
But only found that I was just more lost than when I started
About the time I hit my knees was when you came
Just like the times before
And when it all came down you were knocking at my door
Oh no
Just keep on running
Oh no
You can't give up this timeWe all fall down
No matter who you are
You will feel lonely
To say the least and know that
if you're looking for a cure to this life
You won't find it
No you won't find it aloneAnd even when I can't see past the place I'm in
I know that you are there
I know you'll raise me up again
Oh no
Just keep on running
Oh no
You can't give up this timeWe all fall down
No matter who you are
You will feel lonely
To say the least and know that

if you're looking for a cure to this life
You won't find it
No you won't find it alone
