magnet

nayuta & yumo

Now its decision time
Which one will stay which one will say goodbye
Just my luck to find
Someone who makes me want to leave her behind
We took the backseat, everyone was happy
We took the back where everybody laughed
We took the backseat, everyone was happy
Dreaming of you rushing up to me and

Saying this is where you want to meet
But I don't believe you
Cos last night you woke me up
We almost fell in love
But then you said
It is time for bed
We took the backseat, everyone was happy
We took the back where everybody laughed
We took the backseat, everyone was happy
