Kiss It Goodbye

Nickelback

Kiss it goodbye, goodbye
Kiss it goodbye, goodbyeHollywood is plastic
But easy on the eyes
Big Apple is fantastic
But cuts you down to sizeTreat you like a doormat
Expecting you to fail
Says right across your forehead
Integrity for saleYou'll be on TV
When it starts to snow in hell
You won't believe me
So go and see it for yourselfThat brunettes move to New York
Blondes go California
East coast digs the cocaine
West coast marijuana
Don't be surprised
When you swallow more than pride
It's tough to see through bullshit
When it's up above your eyes
(Kiss it goodbye)Stealing comes with practice
Lying comes with ease
But neither one is faster
Than falling to your kneesMoney leads to fame
And fame is the disease
The latest epidemic
Reality TVYou'll be on TV
When it starts to snow in hell
You won't believe me
So go and see it for yourselfThat brunettes move to New York
Blondes go California
East coast digs the cocaine
West coast marijuana
Don't be surprised
When you swallow more than pride
It's tough to see through bullshit
When it's up above your eyesFame
They...won't....let you get out alive
Your ass...grab it and kiss it goodbye
Fame
They...won't....let you get out alive

Your ass...grab it and kiss it goodbyeSo let's move to New York
Or out to California
East coast digs the cocaine
West coast marijuana
Don't be surprised
When you swallow more than pride
It's tough to see through bullshit
When it's up above your eyesFame
They...won't....let you get out alive
Your ass...grab it and kiss it goodbye
Fame
They...won't....let you get out alive
Your ass...grab it and kiss it goodbye
