Forever

Juliana Hatfield

Red light
Red light
Go to green
Don't make me cry
Don't make me scream
And don't think I don't know
It's already ten forty-threeI could pray
Or toss and turn all night long
But it hurts
And I know no one that I know
Will see me hereJust one more then I'll quit forever
You're a secret
I try to hide
But people see it in my eyes
And in the way I can't concentrateWhen I need you
I think I know how much I've thrown away
If I had you now
I think I'd be okay
I'm just letting go
So I can breatheJust one more then I'll quit forever
Red light went to green
And now I don't feel anything
Don't think I don't know it's really bad for me
I can't live my life
You're dragging me down
My heart pounding
Is the only soundIf I wake up tomorrow
You'll be gone
Just one more
Then I'll quit forever
Forever
Forever
And ever
Amen
