The Last One

DJ Rell

Did you know that the right won?
Another fool, you're the sidearm
And it's enough that you broadcast
You got to touch
Well, this is the last one
This is the last one
Did you find what you wanted?
Another match for the straw man
I've had enough, it can bleed through
You think you're tough
Well, this is the last one
This is the last one
Hold on to me one more night
Hold on to me, can't take it all

Can't take it all
And you know that I need you
But you know I can see through you
Well, this is the last one
This is the last one
This is the last one
(Can't take it all)
This is the last one for me
(Can't take it all)
This is the last one
(Can't take it all)
This is the last one
(Can't take it all)
This is the last one
