Somebody Stop Me

Erica Rivera

Daddy you don't know the half of it
See I started something
know I have to finish it
The curtains blows
Outside my bedroom window
This is my life and I got to go
I check to see if they're a light up in my stocking tight
Don't forget to leave the light on
I'll be home before you know
Don't be mad if you here me on the radio
I feel good and I feel free
On the microphoneSomebody stop me
Keep my body rocking
Till late night
I'm warning you
Don't try to block me
You can't stop me
You're my timeCome my grille asking for the score
What
Scream Scream out
Better meet them on the back door
Sky rocking
To where the speakers go
Please help me
Rock steady grab the microphone
Know check the cockish reading temp to him
I bet my daddy
Dream can talk so loud I can
I'll be home before you know
Don't be mad if you here me on the radio
I feel good and I feel free
On the microphoneSomebody stop me
Keep my body rocking
Till late night
I'm warning you
Don't try to block me
You can't stop me
You're my timeSomebody stop me
Keep my body rocking

Till late night
I'm warning you
Don't try to block me
You can't stop me
You're my timeI'll leave the light on know
And I won't make a sound daddy
Gotta to get my goop on know
I'll be jumping around yeah yeahI'll leave the light on know
And I won't make a sound daddy
Gotta to get my goop on know
I'll be jumping around yeah yeahOh NoSomebody stop me
Keep my body rocking
Till late night
I'm warning you
Don't try to block me
You can't stop me
You're my timeSomebody stop me
Keep my body rocking
Till late night
I'm warning you
Don't try to block me
You can't stop me
You're my time
