

# Leavin' In Your Eyes

## Little Big Town

It sure is quiet, sky's too blue  
You ain't hidin' but I can't find you  
Sheet's on the line so nothing's change  
I guess there's nothing left to say(Chorus)  
I read you like an open book  
Standing on the edge but you can't look back  
Feel better if you just lie  
You got leavin' in your eyes If you just let one tear fall down  
That might tell me why you're hangin' round  
If you remember when we started this  
You might remember what you're gonna miss(Repeat Chorus) Ain't no suitcase, ain't no rain  
No sign of life or anything at all Open up the screen door and you're looking out  
Oh I can see it now I read you like an open book  
Standing on the edge but I can't look down  
It'd feel better if you just lie I read you like an open book  
Standing on the edge but I can't look down  
It'd feel better if you just lie(Repeat Chorus)  
You got leavin' in your eyes
