# I Gotta Dream On

## Herman's Hermits

Your pretty face came into view
And then what could I do? My dream began again
So here I go into a world where I can
Dream on, just thinkin' of you
I gotta dream on; that's all I can doNow that you know how I feel for you
It just goes to show I'll be true to you
So here I go into a world where I can
Dream on, just thinkin' of you
I gotta dream on; that's all I can do'Cause if you want me by your side
You gotta hold your hands across the sky
Tread the stairway through the stars
Into your arms, into your armsYour pretty face came into view...'Cause if you want me by your side...Your pretty face came into view...(Repeat and fade):
I gotta dream on, just thinkin' of you
I gotta dream on, that's all I can do
